The luxurious PU material's covers with soft to touch for **Elite notes** is perfected with '3-D patterns' debossed multi-levelly on plush PU leather covers that changes the tone to darker. Debossing is an impression made in the PU with heat and force by-hand; using 'Letterpress' method that is old-fashioned and more laborious than modern methods, resultantly a debossed cover reveals the depth with change of color-tones on PU leathers, that we cannot get from digital forms of printing. We rejuvenate the covers and offer choice to pick from our pre-made stamp-designs that cheer-up the notebook.

'Elite notes' inside pages are printed with rules and page folios, for easy tracking of subjects written. A 'Table of Contents' in initial pages provides effortless tracking for subjects written.
